Brown County Schools Preschool Program Philosophy and Goals for Children

Philosophy

We believe that a child's social, emotional, physical, and cognitive development is best nurtured among caring adults and peers within an environment that extends curiosity and enriches learning. Our program is child-centered while providing the structure needed for children to feel safe within predictable routines. We respect that each child is uniquely individual and eagerly watch for and celebrate learning milestones as a natural outcome of play and guided learning activities.

Mission

The mission of the Brown County Schools Preschool Program is aligned with the mission for the district's K-12 and Adult Education Program.

**World Class Opportunities.
